Are you First Nations, Inuit, or Métis?

Doing your taxes has benefits.

How do you get benefits and credits?

You and your spouse or common-law partner need to do your taxes by April 30 each year to get the benefits and credits you may be eligible for, even if your income was tax exempt or you had no income. If you live in Quebec, you also have to do a provincial tax return. To do your taxes and apply for benefits and credits, you need a social insurance number. For more information, go to canada.ca/social-insurance-number.

How much could you get per year?

CCB – up to **\$6,833** for each child under 6 years of age and up to **\$5,765** for each child aged 6 to 17. Apply for all children in your care if you have not applied previously and nobody is receiving it for them. Claim child care expenses if you paid to have someone look after your children.

GST/HST credit – up to **\$456** for an eligible individual and up to **\$912** for an eligible couple with two children.

Canada workers benefit – up to **\$1,381** for an eligible individual and up to **\$2,379** for an eligible family. This refundable credit reduces the tax you owe first and any remaining credit is refunded to you. Also, you may apply to get up to half of your benefit amount in advance payments.

When you're an independent adult with bills to pay and goals to work towards, you realize that every dollar counts.

Persons under 18 years of age at the end of the year may also claim an additional amount of up to **\$5,003**. Go to canada.ca/disability-tax-credit.
