

**Providing air quality education and programs to the Kitimat-Terrace Valley airshed residents.**

**KITIMAT  
AIRSHED  
GROUP**

Are you replacing an old wood stove? You could qualify for a rebate from the Kitimat Airshed Group. Rebates range from \$500 - \$1000, depending on the appliance you are installing.

# Community Wood Smoke Reduction Program

## Program funding provided by

Ministry of  
Environment and  
Climate Change Strategy

## Do you want to know more about air quality?

Consider joining the Kitimat Airshed Group as a member. Annual society dues are \$25 and give you access to consultations, education programs, presentations, and the opportunity to provide input on managing the airshed.

Do you have more questions?

## The Community Wood Smoke Reduction Program

### Check the criteria on KAG's website

You must replace your old, uncertified wood stove with an approved appliance (EPA -certified wood stove, pellet stove, or a heat pump). Contact KAG if you need clarification.

### Submit documents

Submit your application and supporting documentation online or in the mail. There may be delays in receiving your rebate if the documents are not included.

### Wait for your rebate

If all the criteria are met, your rebate cheque will arrive within 6 weeks.

New wood stoves, pellet stoves, and heat pumps significantly lower harmful PM 2.5 emissions. Thank you for doing your part to protect our airshed.
